Arbour Vale School

Safeguarding and Wellbeing Offer

INTRODUCTION

OHC&AT and Arbour Vale are committed to providing outstanding educational opportunities for all our pupils and students. The safety and welfare of our pupils and students is of the utmost importance. All adults working in OHC&AT settings must protect children and vulnerable adults from abuse and be aware that any pupil or student may be abused or be at risk of abuse. Arbour Vale follows the Child Protection, Adult Protection & Safeguarding Policy and Procedures and the Student Mental Wealth, Health & Wellbeing Policy as agreed by the OHC&AT Board of Directors.

Our Safeguarding & Wellbeing Offer provides further detail about the specific work, both proactive and reactive, that we undertake within the school to ensure that our students are able to learn and thrive in a safe and supportive environment. This document should therefore be read in conjunction with both of the above named policies and procedures. A full list of related policies and procedures can be found in the Child Protection, Adult Protection & Safeguarding Policy.

This document gives details of Arbour Vale's contextual safeguarding approach and any localised child protection procedures. Which is based on a three tiers of provision:

- Universal – this encompasses all proactive work undertaken to safeguard our pupils/students, e.g. pastoral care, curriculum delivery, whole school culture, student voice/student advocacy work, therapeutic support, partnerships with external services e.g. clinical psychology.
- Targeted – any specific programmes or initiatives aimed at students or families who may benefit from additional support e.g. special learning programmes, group work for students at risk.
- Specialist – external and/or specialist support within school that is aimed at students and/or families who have been identified as needing extra support e.g. learning developed specifically to safeguard, therapy and nursing programmes.

DEFINITIONS

Safeguarding: the proactive safeguarding strategies in place to ensure **all** children and young people learn in an environment that protects their health and development and gives them opportunity to gain their best outcomes.

Child Protection: the child protection procedures in place to ensure **specific** children or young people are protected from harm, including children or young people who have suffered from, or may be at risk of, physical abuse, neglect, emotional abuse or sexual abuse.
